## 2024 Social Security and Medicare guide

## Medicare in 2024

## Medicare Part B

There is a special rule for Social Security recipients, called the "hold harmless rule," that ensures that Social Security benefits will not decline from one year to the next because of increases in Medicare Part B premiums. Whether this rule comes into play in a particular year depends on the amount of COLA and the Medicare Part B premium increase. The hold harmless rule will apply in 2024 for those people who had been paying the standard Part B premium if their Medicare Part B premium increased but the Social Security COLA amount was not large enough to cover the full amount of their increased premium. Those who are subject to the 2024 hold harmless rule will pay less than the full $\$ 174.70$ premium. Everyone else will pay the 2024 not held harmless premium. The MAGI used for the 2024 not held harmless premiums is based on the individual's 2022 tax return.

| Modified adjusted gross income (MAGI) 2022 tax year | 2024 held harmless (HH) | 2024 not held harmless | Premium level |
| :---: | :---: | :---: | :---: |
| Individual $\leq \$ 103,000$ <br> Married, filing jointly $\leq \$ 206,000$ | < \$174.70 | \$174.70 | Standard premium |
| Individual >\$103,000-\$129,000 <br> Married, filing jointly >\$206,000-\$258,000 |  | \$244.60 | $1.4 \times$ <br> standard |

## Medicare income brackets for determining monthly premiums

Higher-income Medicare beneficiaries have been paying more for their Medicare Part B and Part D coverage for several years in the form of income-related monthly adjustment amounts.

Legislation called the Medicare Access and CHIP Re-authorization Act of 2015, otherwise known as the "Doc Fix" law, permanently repaired the method of paying doctors under Medicare, secured permanent funding for low-income Medicare recipients, and ensured that children will be able to get access to health coverage. This law also enacted new MAGI tier brackets starting in 2019 that will apply for the current Medicare premiums as reflected in the tables. The 2022 tax return will be used to set those 2024 income-related monthly adjustment accounts (IRMAA) payments using this new tiered system to determine Medicare Part B premiums.
